## Author Description of the Error and Correction

Three references are incorrectly numbered and are in the wrong order on page 22. Reference #7 should be re-numbered as #10. Reference #8 should be re-numbered as #7. Finally, reference #10 should be re-numbered as #8. The rest of the references are correct (including #9).

There is an error on page 17, left-hand column, 2nd paragraph from the top, and third sentence from the top:

“This dropped by 21.4% over the next five years.<sup>7</sup>”

The sentence should be changed to:

“This had dropped by 24.2% between 1981 and 1986.<sup>7</sup>”
