Fall Issue, 2015

Hello! Our fall issue contains a wide range of geriatrics research ranging from improving dental health in older adults,[1] to an examination of the association of cognitive test scores and level of function in older adults.[2] Other papers examine the risk factors for developing dementia in older indigenous persons,[3] and provide an overview of outcomes and results of a pre-conference workshop held prior to the Scientific Meeting of the Canadian Association on Gerontology.[4]

Finally we are pleased to present the abstracts presented at the 35th Annual Scientific Meeting of the Canadian Geriatrics Society, which was in Montreal this year.[5]

Thanks again for your interest!

Dr. Ken Madden
Dr. Mark Rapoport
Dr. Colleen Maxwell
